Jim Baltic, CT Verified Review Original review: November 4, 2020Maxcare time and money is an absolute waste! Today I'm going through the 11-2-2020 claim process and all they do is deny me after all the money paid for insurance. I bought my car through Carmax and asked me for a bumper for maxcare warranty bumper extended warranty. Three months to the car and catalytic checker holiday ... no coverage. The car does not work due to the short roof of a year and battery moon so it does not turn off the water leaking onto my battery. They can't turn off the complete breakage of my alternator because of the battery, which says they don't cover water damage. Even if the policy says it covers electricity issues. I'd like to speak to a supervisor, and it looks like only two of the company are unavailable. If you choose your own mechanic, they get an extra \$50 for your discount. The mechanics that are in the house are very far away, as most of them are mechanical, often noting that they do not mess with them because they deny it and leave people hanging. DO NOT Buy THIS. DO SOMETHING OTHER THAN MAXCARE. I'm looking for the Better Business Bureau! Read the full review of Overland Park Cameron, KS Verified Review Original review: June 29, 2020I bought my vehicle in December 2016 Carmax Merriam, Ks. They told me all the nice things you wanted to hear and I read the warranty. Remember that I have been operating in the car industry for 5 years. He bought vehicles at 61,586 miles. I've reached 93,000. I mean, 32,000 in four years, and I live in Kansas. At the weekend I was driving around town and my driver broke in two on the side drive axle. I'm paying to take the car to my show on a check. They see it snapped, and they let me know. That's why I'm going to contact maxcare and sue, and I've been informed about the refund process. The first guy I talked to was pretty nice, but you could tell he was lost. He put me on hold while he edited his report. He came back and asked for my phone number. I gave you my number. After a few minutes the phone call dropped and he never tried to call me back (this was initially about 15 minutes on standby and then about 15 minutes with him on the phone. I'll call back and wait 22 minutes before my call is received. I called back to verify what else I had to do to be able to carry the bet and get my attractive refund. Learn how to put the first man attractive and repair under different claim numbers. This. So I gave my store the wrong number. So I had to contact them with the repair number. Then CSR places me on hold for 5-10 minutes and comes back saying both him and the previous CSR told me wrong. This is #that they use internally and that I will get the real claim when confirmed. When it was approved, I would have to call again for the NPA to be sent because they have no process to do so automatically. I asked the man to place the notes asking him to send them when the claims set-up was approved. He said they didn't do it that way. I can put a note on the bet, but the set-up said he probably wouldn't do it. I went on tour about how uncomfortable it is and how I'm doing all the work for my guaranteed refund and they don't do ANYTHING! He just said that he understands again and again with no provided solution or attempt to save me time. I told him I spent an hour of my day with them. I don't have time to go back and put my call on hold in 20 minutes. Just to get misinseed twice. He might have cared less again. Then comes the driver's axly attached to two, and the repair shop contacted Maxcare to talk to the demand set-up. Just to tell them it was rejected after the store sent them the picture that showed it was broken. They said you passed. Definitely not passing over and just had some surface rust. The shop explained to them that this was not a failure of the piece due to rust, again and again. They denied the claim and I had to pay another \$260 out of pocket after the \$105 tow truck I had already paid. He called to talk to a supervisor and said it was my fault he was rusty again and that the corrosion was a failure. Even after I explained that I tried to guarantee and even saw myself part. The shaft shape had zero casualties and I didn't hit anything. Of course with the snow kansas air will rust the surface after 4 years. Again, he may care less and said the claim was denied. These people are not a fraud and will cover repairs as they say. This was my first and only claim presented in almost 4 years, I would never recommend this scam to anyone and the buyer!!!! I note that I paid \$2200 for this extended warranty. Worth!!!! Read The Devontte in a full review of Grand Rapids, original review of the MI Verified Reviewer: June 9, 2020, the bad experience I experienced or witnessed buying a car. I didn't have a week off and my car went back to the store for up to 2 months. The paint is off, the airbag light, multiple problems continued to come to the total scrap at the same time! However, we offer you a maxcare plan that is not customer secure. My engine goes out after a year and MAXCARE gives me to run for about 1 1/2 months. Just to deny my claim ... they were NOT to change my engine or pay a rental while my car was fixed I had my maintenance receipts and everything. Why do it if you cannot use service or warranty, the customer pays on time every month!! I wouldn't recommend CarMax CUSTOM Maxcare to anyone! They're not for the client! Original review from Fairfax Mollie, VA Verified Reviewer: May 13, 2020I will be covered by the provider to confirm a claim that I would make for the replacement of an alternator. The representative said yes and then went out of his way to say that all the necessary labor would be covered instead. When I got the estimate for repairs from my mechanic, I found out that wasn't the case. Then I got a few more phone calls to the MaxCare provider, who honestly said that labor up to a certain point was covered based on national labor allowances. I'll also be looking for a new mechanic, but I didn't appreciate someone going out of their way to lie about what was provided to me, especially the difference is a few hundred dollars. Going upstairs also absorbed most of my work day. Gerald Saint George, UT Verified Review Original review: April 20, 2020 If I could give 0 stars. I wouldn't recommend the MaxCare warranty to anyone. I promise you months while they talk about a big game and take it for a closed repair and explain everything from denying the claim. His serviceman called them, I called them, the service manager called them to explain the nature of the failure. We can't cover this up. Really... Do not buy this warranty, you will only get screwed at the end. Period. You will get better by taking money and putting it in an account at least that much value will be when you need it. CarMax You should be ashamed! I'm not going to buy another car from you or let you put me in an extended guarantee again! And I bet I'll tell anyone who will listen to my experience... Diane Fort Collins, CO Verified Reviewer Original review: December 30, 2019Eby the scope of coverage selected (a \$50 exemption) to buy a Honda Odyssey and I purchased a Honda Odyssey and the top tier MaxCare warranty plan. We are easily used to replace an alternator after about 9 months without any problems. However, our van had a flashing control engine light arrived about 6 weeks ago. The MaxCare warranty department has decided that although we have all records that prove otherwise, the work that needs to be done should not be covered due to a lack of routine maintenance. The CarMax certified repair facility we used even agreed with our location and was told on our be because MaxCare contact and claim (even if the reasons given were not routine maintenance items) would be rejected. Long story short - we may be out of repair/labor for at least \$600 as MaxCare decides they won't honor the warranty granted. Hagerstown Jamaal, MD Verified Review Original review: December 18, 2019Maxcare treated me horribly. My 09 CRV has been honda dealership 4 for 3 weeks. They still didn't approve my repair of a faulty engine (I only had the car for a year). The only thing I was free to do was be attractive. I couldn't pay for my car because I've been paying for Ubers and car rentals for the last four weeks. That's all they tell you when you call to complain, unfortunately. This is the worst experience. Carmax doesn't treat me any better. Do not pay for Maxcare rent until they confirm repairs (now awaiting approval for a month). They want Honda to install a clunky engine. They don't pay for diagnostic tests unless they approve the repair. And I have a \$300 discount. 2 words MAXCARE SUCKS. C Norwich, CT Verified Review Original review: October 26, 2019I Carmax had called the CarCare number given to me by the man. His name was Kenneth. Anyway, I called the CarCare number, and a lady answers. I'm explaining to him what we have. That my car was served. And two weeks later, the same problem appeared. I feel I should not have to pay a 2 exemption. The car must be repaired for the first time. I want to finally talk to his superior while he's running around and stumbling over lies. Carcare's 2nd District. And the inspector didn't come back to me. Now it's been 2 days and no response. I paid over \$3000 for this guarantee and won't even work with me?! . You know what, you know what?. All my future payments for the car... I'm sending them your way. And you can handle my payments. What did I pay for? Not even a call back! It's unprofessed! BBB is next with a review from me. Full review of Anchorage Quality, AK Verified Reviewer Read the original review: September 16, 2019 Customer brought his tool for a simple repair, a washer pump. He called, took auth# and ordered the piece. I've done the repairs. He's been called in for payment. That's where the trouble began. My shop has moved since we last worked for one of the policyholder. A three-hour battle began to get this money. I had to call the customer to get the information I needed to move forward. After all, they changed their willing to pay 3 times. BbW of this outfit. It is not easy to work with them and everyone you talk to will give you a different answer. Stephanie Riverside, CA Verified Reviewer Original review: July 16, 2019I purchased a 2011 Infiniti G37 3 years ago. Since then, I've had to replace the slave cylinder because my clutch went out. I had to change my transmission, double failures like whether my windows got off properly, and now my AC has stopped working and found out that I need to get a new capacitor because it's cracked. I COVERED A PENNY. They said they covered it up. mechanical problems. The capacitor, which needs to be replaced, is considered a mechanical problem. The part sold as an assembly for about \$600 and is a capacitor radiator double part which means it has denied it. I don't know why you cracked, but I told them I hit a rock or something. They need to conduct an inspection before confirming it, but if they've been told it can't because there's no part of the fault, why does it have to be inspected? In 3 years when I lived in their guarantee, I didn't use it once because they didn't want to cover anything. As of today, I'm wasting money and canceling my guarantee because the rest of the amount has to go towards my premium. It's a hoax. Read the full review Next Next
